

“I’m Not Going Away

**The wind is rising & the sun ain’t shining
The rain rules the roost all day
Come in & come hither n’ don’t ‘ya dare dither
Honey, I got something to say**

**While you’re sitting there lonely I love you only
I’m gonna, gonna beg you to stay
as the flames in our fire stretch ever higher
‘cause I’m not going away**

**CHORUS I’m not going away
No packing the very first bag
Not gonna miss all the fun
I’m not going away
I’m not going away
Why let the love we can share
Drift off on the air
When we can waltz our way to the sun**

**A Cadillac gleaming & a red rose teeming
Each full of grace & power
Is little compared to the time that we shared
Or the way we could spend the next hour**

**So your heart took a beatin’ from all of his cheatin’
Well, your singing solo days are through
Come to my café n’ share a warm latte
I’ll tell you all about the view**
